

Brent Parent Carer Forum in Partnership with Brent Council and Brent Clinical Commissioning Group are hosting

The Voice of the CHILD

Workshop for parents with a child/YP with SEND 0-25

Thursday 15th October 2020

10.30-12.30

Via zoom

Would you like to be better informed to understand the legal changes involving capacity and consent within health and social care?

Would you like to feel more confident and empowered to think about the different ways to involve and support your child to have a bigger voice? (this is in no way suggesting you do not already)

By supporting you to be more informed will hopefully ensure there is a smoother transition and a better understanding as your child/yp moves into adulthood

We are planning a series of presentations on the Thursday 15th October 10-12.30 p which will cover areas such as;

- Legal frame – consent and capacity
- Starting young – the ways we already support our children to have a voice
- The different stages in the journey to adulthood- what you can do as parent to help your child prepare
- Supporting you to prepare
