

### ***Implementation of the Sports Premium Grant Allocation in our Barham Primary School 2016/17***

---

Total no. of primary aged pupils 5 – 11 (years 1-6) 754

---

Total amount of Sport Premium Grant received (2016-17) **£11,310**

---

Primary Sport and PE is vital for not only a child's current physical, mental and social development but is key to providing a foundation for them to lead an active and healthy lifestyle in the future. The government are supporting this by providing primary schools with sports premium funding to aid with facilitating the provision of physical activity. At Barham we have structured PE lessons led by specialist PE Teachers, provide equipment for active lunchtimes and actively encourage the participation of all pupils in extra curricula activities with teachers and specialist coaches.

From DFE guidance, parent feedback and data collection Barham primary chose to prioritise the funding in 2016/2017 with the main focus of **'Increasing Physical Activity levels throughout the whole school'**

This was proposed to be done through the following three headings:

- **Break and lunch time activity levels:** : Increase Physical Activity during lunch and break time of ALL pupils
- **Extra Curricula Clubs:** With a Focus on provision for girls and younger years.
- **Curricula PE lessons**

#### **Sport Premium Grant Expenditure:**

The bulk of the Sports Premium Grant has been spent on employing a sports apprentice. Along with this has been the purchase of additional equipment for the playground and the subsidising of clubs with specialist coaches.

#### **Current Impact of Sport Premium Grant Expenditure:**

The impact of the sports apprentice, supplementary sports equipment and additional extra curricula clubs through subsidised coaches, on physical activity levels is already very apparent. There has been a huge increases in pupil's activity levels during lunch and break time as well as the percentage of children regularly attending extra curricula clubs.

- **Play time:** Increase Physical Activity during lunch and break time of ALL pupils

With the addition of our sports apprentice who is on duty during playtime we have successfully increased the physical activity levels of children during break and lunch time through:

1. Effective zoning of the playground
2. Targeted group activities lead by Sports apprentice
3. Purchasing additional equipment
4. Training and mentoring of other TA's/staff on duty

- **Extra Curricula Clubs:** with a focus on provision for girls and younger years.

In 2015/16 there was less provision for clubs specifically for girls and less running for years 4 and below.

With the help of our sports apprentice and the subsidising of clubs with external specialist coaches we have added over 9 new extra curricula clubs that we provide to our pupils. For a complete list of clubs that have been running this year please see additional list.

The clubs we provide are now more extensive with a massive increase in the percentage of girls regularly attending extra curricula clubs. We have over 130 girls in key stage 2 regularly attending extra curricula clubs and have had over 110 children competing for Barham at local and regional competitions and sporting tournaments in hockey, football, and netball and cross country.

- **Through PE Lessons**

With the addition of our sports apprentice assisting in PE lessons we have enhanced engagement of every pupil throughout the lesson ensuring they are physically active for as much of the lesson as possible. We are also in the process of supplementing the PE time with the introduction of the 'daily mile' and promotion of a healthy and active lifestyle.

**Self- Review & Quality Assurance: Measuring the impact of the funding**

**We are continuously evaluating the impact of this sports funding through a variety of ways:**

- An evaluation of the overall programme of activities on offer by children: club lists and participation data
- a cross section of pupil interviews
- Parents feedback
- A link governor with responsibility for PE and extra-curricular activities
